

KARTIK SAI BOKKA

Software Developer | Java • Front-End • Database

+919106960869 ◇ kartiksai619@gmail.com ◇ Tanuku, Andhra Pradesh ◇ [LinkedIn](#) ◇ [GitHub](#)

SUMMARY

Software developer with entry-level experience specializing in full-stack, application development, and continuous improvement. Passion for coding fuels me continuously to learn and grow. Adept at identifying opportunities to enhance my skills, aiming to stay at the forefront of industry trends and advancements.

EDUCATION

Bachelors in Computer Science , Vignan's Lara Institute of Technology & Science (GPA: 7.34)	Dec '21 — May '25
Intermediate in MPC , Narayana Junior College (GPA: 8.2)	Jun '19 — May '21
SSC in General Curriculum , Bhashyam Public School (GPA: 9.2)	Jul '18 — Apr '19

TECHNICAL SKILLS

Programming Language C++, Core & Advanced Java, Servlets, JSP, JDBC, Hibernate, MVC Architecture
Web Development HTML, CSS, JAVASCRIPT, React (Components, Props/State, Hooks, Routing)
Database Management SQL (DDL, DML, DQL, TCL), MySQL, PostgreSQL
Tools & Concepts Git/GitHub, OOP, Spring/Spring Boot

INTERNSHIP EXPERIENCE

Java Full Stack Developer Jun '25 — Present

- Learned and applied Advance Java concepts, including Servlets, JSP, JDBC, and MVC architecture.
- Built a **Product Management System** using Java, implementing CRUD operations, form handling, validations, and database connectivity.
- Gained hands-on experience in HTML, CSS, JavaScript, and integrating frontend with backend using servlet-based architecture.

AWS Cloud May '23 — Aug '23

- Contributed to designing and deploying secure and scalable cloud environments with AWS services.
- Worked on EC2, RDS, and S3, with emphasis on instance deployment, database provisioning, and cloud storage management.
- Improved understanding of cloud architecture, cost optimization, and infrastructure security.

PROJECTS

Various Product's Price Comparison [Link](#)

- Developed an interface that can compare prices more accurately in real time using scraping, addressing challenges related to price fluctuations of different products
- Enhance UI to view product details alongside price comparisons, making the interface more informative and practical.

Question Paper Generator Based on Blooms Level [Link](#) Dec '24 — Apr '25

- Designed and implemented a secure and adaptive system that automatically generates question papers aligned with cognitive difficulty using BERT-based transformer models.
- Integrated real-time feedback and adaptive learning to continuously enhance classification accuracy across multiple engineering domains.

JDBC Servlet Web Application [Link](#) Nov '25 — Dec '25

- Implement Servlet controllers for handling HTTP requests. using Servlets, JSP, and JDBC to interact with a database.
- Renders views using JSP pages, Supports basic CRUD operations

CERTIFICATIONS

Java Full Stack , WIPRO	Oct '24
Cybersecurity , CISCO networking Academy	Jul '24
Prompt Engineering , NASSCOM & APSCHE	May '25
Database Management System , NPTEL	Mar '25

EXTRA CURRICULAR ACTIVITIES

- Actively practice problem-solving on platforms like LeetCode and participated in college-level coding events.
- Engaged in side-projects to strengthen software development skills outside academics
- Developed a foundational understanding of the stock market and actively track major financial trends.
- Regularly follow and analyze global geopolitical developments and their technological and economic implications.
